Their father, who had gone ahead to find work, was waiting for them; their mother would follow, in the nick of time. Except for the removal of Wake Forest College to Winston-Salem, there has never been a more exciting or impactful time in the history of the institution than during the 22 years of the Hearn administration (1983-2005). In this era, Wake Forest went from a strong regional, Baptist-affiliated university to a top 30 national,

It hosted two presidential debates, won four NCAA team and one individual athletic championships, produced nine Rhodes Scholars, raised over a billion dollars, started a divinity school, invested millions in the renovation of old and the construction of new

buildings, increased the number and academic excellence of its faculty, brought in higher quality students, lowered its student/faculty ratio, had groups and individuals within it excel academically, athletically, and altruistically, and became more united. It grew slightly in size physically but more significantly it

magnified its influence in the world and produced a bevy of leaders on all levels dedicated to making a positive and humanistic difference. This book traces the events that led to the explosive growth and influence of Wake Forest. At the helm, guiding the university, was Thomas K. Hearn, Jr. He was a visionary and

decisive leader whose strong will and high energy propelled the institution. With him, and even sometimes ahead of him, was a supporting cast of faculty, students, administrators and staff who were creative, innovative, but above all concerned with how to live and implement the university's motto: Pro Humanitate.

Within these pages you will read how the transformation of Wake Forest occurred. It involved thousands of individuals and is one of the most amazing stories of institutional change ever. Each year in the process is documented with highlights on the people, decisions, and actions, that made the overall conversion possible.

exploitation. From the very first feature-length exploitation film, 1913's Traffic in Souls, to Reefer Madness, Mom and Dad, The Immoral Mr. Teas, Blood Feast, It's Alive, Ilsa: She-Wolf of the SS, The Toxic Avenger, The Human Centipede, and many other films in between, exploitation films have been alternately called crude,

disgusting, trashy, and occasionally brilliant. Their makers were often figures on society's social, cultural, and political margins. Some were hucksters looking to make a quick buck and others were passionate artists attempting to make a deeply-felt personal statement despite having few resources at their disposal.

Exploitation films are far from a cultural oddity; they have existed for as long as film itself. Despite their reputation as a form of low culture, they were hardly garbage for the sake of being so; in their crudity and audacity they revealed unique observations about the society that produced them. Scum Cinema is the story

of exploitation films and those who made them. Its research was conducted with academic rigor, but it is written in a style that will appeal to both the film student and the casual fan.
