As the world grows increasingly interconnected, data communications has become a critical aspect of business operations. Wireless and mobile technology allows us to seamlessly transition from work to play and back again, and the Internet of things has brought our appliances, vehicles, and homes into the network; as life increasingly takes place online, businesses recognize the opportunity for a competitive advantage. Today's networking professionals have become central to nearly every aspect of business, and this book provides the essential foundation needed to build and manage the scalable, mobile, secure networks these businesses require. Although the technologies evolve rapidly, the underlying concepts are more constant. This book combines the foundational concepts with practical exercises to provide a well-grounded approach to networking in business today. Key management and technical issues are highlighted and discussed in the context of real-world applications, and hands-on exercises reinforce critical concepts while providing insight into day-to-day operations. Detailed technical descriptions reveal the tradeoffs not presented in product summaries, building the analytical capacity needed to understand, evaluate, and compare current and future technologies.

THE MARRIAGE AND FAMILY EXPERIENCE is an engaging, student friendly, four-color Marriage and Family best seller. The text's up-to-date material, real-life cross-cultural examples, and balanced presentation make it an accessible and compelling read for the Marriage and Family student. It successfully bridges all elements of the course, including intimate relationships, family policy, and family issues. The combination of the strengths fosters consistent positive student reaction and feedback.

THE MARRIAGE & FAMILY EXPERIENCE: INTIMATE RELATIONSHIPS IN A CHANGING SOCIETY brings together all elements of the course -- including intimate relationships, family policy, and family issues. Striking a balance between an academic and more functional approach, the authors draw from research to present a sound sociological and family studies base enhanced by perspectives from anthropology, history, psychology, journalism, literature, economics, and gender studies. The book explores recent research on topics such as adoptive parenting, the transgender experience, childbearing patterns, gay and lesbian families, communication and conflict resolution, the influence of popular culture, and working families. Real-life examples and a focus on self-assessment and reflection make the book accessible and encourage students to think and act for themselves. The thirteenth edition retains a progressive approach to diversity yet remains rooted in a positive, pro-family perspective. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This custom edition is published specifically for Swinburne University.

This guide is based on a study of referees' reports and letters from journal editors on the reasons why papers written by non-native researchers are rejected due to problems with English usage, style and grammar. It draws on English-related errors from around 5000 papers written by non-native authors, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. English for Research: Usage, Style, and Grammar covers those areas of English usage that typically cause researchers difficulty: articles (a/an, the), uncountable nouns, tenses (e.g., simple present, simple past, present perfect), modal verbs, active vs. passive form, relative clauses, infinitive vs. -ing form, the genitive, noun strings, link words (e.g., moreover, in addition), quantifiers (e.g., each vs. every), word order, prepositions, acronyms, abbreviations, numbers and measurements, punctuation, and spelling. Due to its focus on the specific errors that repeatedly appear in papers written by non-native authors, this manual is an ideal study guide for use in universities and research institutes. The book is cross-referenced with the following titles: • English for Academic Research: Grammar Exercises • English for Academic Research: Vocabulary Exercises • English for Academic Research: Writing Exercises • English for Writing Research Papers Adrian Wallwork is the author of more than 30 English Language Teaching (ELT) and English for Academic Purposes (EAP) textbooks. He has trained several thousand PhD students and researchers from 40 countries to prepare and give presentations. Since 1984 he has been revising research manuscripts through his own proofreading and editing service.

Presents a collection of short stories by such authors as Sherwood Anderson, Willa Cather, F. Scott Fitzgerald, and James Joyce, along with analysis of their works.
