Approximately 35 million people in the United States have been diagnosed with some form of chronic obstructive pulmonary disease (COPD)--emphysema constituting 18 million of that group. Worldwide, as many as 293 million people suffer with these conditions. COPD is the fourth leading cause of death in America, claiming nearly 120,000 lives annually. Yet conventional approaches to treatment, with their regimens of drugs and unceasing physical therapy, provide neither cure nor significant relief. In *Natural Therapies for Emphysema and COPD*, Robert Green shows that alternative holistic therapies ranging from

herbs to homeopathy offer great promise in relieving COPD's debilitating symptoms. Starting with the basics of the physiology of respiration, Green presents a comprehensive program that includes detoxification, dietary changes, nutritional supplements, and herbal medicine; breathing techniques and exercise options such as aerobics, yoga, qigong, and tai chi; and alternative therapies such as homeopathy, acupuncture, and massage--noting how and why each therapy works. He also details how to stop smoking, includes resources for alternative health practitioners, and provides sources for the

At once familiar and exotic, spices are rare things, comforting us in favorite dishes while evoking far-flung countries, Arabian souks, colonial conquests and vast fortunes. John O'Connell introduces us to spices and their unique properties, both medical and magical, alongside the fascinating histories behind both kitchen staples and esoteric luxuries. A tasty compendium of spices and a fascinating history and wide array of uses of the world's favorite flavors—The Book of Spice: From Anise to Zedoary reveals the

amazing history of spices both familiar and esoteric. John O'Connell's erudite chapters combine history with insights into art, religion, medicine, science, and is richly seasoned with anecdotes and recipes. Discover why Cleopatra bathed in saffron and mare's milk, why wormwood-laced absinthe caused eighteenth century drinkers to hallucinate and how cloves harvested in remote Indonesian islands found their way into a kitchen in ancient Syria. Almost every kitchen contains a bottle of cloves or a stick of cinnamon, almost every dish a pinch of something, whether chili or cumin. The Book of Spice is

The recognition of andropause, the middle-age stage in male development comparable to women's menopause, is hampered by the lack of a clear outward manifestation of the chemistry and physiology specific to aging men. Men are still capable of reproduction well into and beyond middle age. Yet a man's sexual desire and potency varies, often according to his testosterone level. Recent studies show that the lowered testosterone levels endemic in aging men--a gradual drop that is quite normal--are being exacerbated by environmental agents. Testosterone-blocking estrogen agents are present in

insecticides, industrial materials, pharmaceuticals, and foods. Men are daily inundated with a "cocktail" of estrogen agents that alter the fine balance of testosterone that makes them male. But as recent medical research has revealed, testosterone replacement therapy with Low T drugs is not a good option because of the increased risk of cardiovascular problems, such as heart attack and stroke, and because the body can become dependent on pharmaceutical testosterone and stop producing any on its own. In this updated edition of The Natural Testosterone Plan,

Stephen Harrod Buhner shows why men need help to maintain their testosterone levels as they age and explains how naturally occurring phytoandrogens--plant medicines that contain male hormones--can safely remedy the depletion exerted by the environment. Buhner details how each phytoandrogen works, when its use is indicated, and the most appropriate method of application, providing all men with safe, natural, and effective means of maintaining optimum testosterone levels well into old age.
