Summer Research Recipients

Below is the faculty roster for academic year 2021-2022. For up-to-date information, please consult the College Directory or the Office of the Dean of the Faculty.

The Faculty

The course will meet on campus during the Spring 2020 semester and travel, over Spring Break, to the National Memorial for Peace and Justice in Montgomery, Alabama. We will visit the Memorial's ...

Environmental Geology, ninth edition, presents the student with a broad overview of environmental geology. The text looks both at how the earth developed into its present condition and where matters seem to be moving for the future. It is hoped that this knowledge will provide the student with a useful foundation for discussing and evaluating specific environmental issues, as well as for developing ideas about how the problems should be solved.

This clear, well illustrated text takes the reader through the basics of film analysis, drawing on a wide range of film for discussion. Questions of genre and the contexts and meanings of film are considered.

Never HIGHLIGHT a Book Again! Virtually all testable terms, concepts, persons, places, and events are included. Cram101 Textbook Outlines gives all of the outlines, highlights, notes for your textbook with optional online practice tests. Only Cram101 Outlines are Textbook Specific. Cram101 is NOT the Textbook. Accompanys: 9780077216054, 9780072826913, 9780077275358

Everything changes. We are currently immersing in the Digital Era and going through in-depth change. The companies, economy, society, and even us as individuals are changing (or should be). Managing in the Digital Era is a new challenge for entrepreneurs, managers, marketeers, economists, politicians... The impact of change is such that no one is left out. Communication is in the core of these changes, requiring an in-depth review of the Media industry business models and also those of other industries. Technology, on the other hand, is the major engine of this new Era, and more than ever the leading role will be played by leaders and their teams. Today, any citizen speaks to the world, asks questions and makes demands. This book pictures the changes and the paths that are being designed by world giants, and clarifies the new challenges facing us.

Reichard's Environmental Geology third edition continues to emphasize how humans interact with the environment within a geological context. The writing style holds the interest of non-major students and includes recent, relatable geologic events. Each chapter incorporates student activities and discussion questions designed to give students a personal connection to the topic.
